Why you need protection from HMRC

HMRC are more determined than ever to claw back money from tax payers. Did you know that with pre-return checks inspectors can ask to see records even before you submit a tax return? So with the new processes and wider powers to investigate your business, HMRC are using more efficient methods of checking for non compliance.

They are now able to:

- ✓ Make inspections unannounced*
- ✓ Check your records before a tax return is filed
- ✓ Demand records without issuing a formal notice
- ✓ Ask third parties to check the accuracy of information
- ✓ Investigate direct taxes, VAT and employer compliance, since inspectors are now cross trained

In addition to full enquiries, they are also targeting taxpayers to convince them to comply with HMRC underpayment estimates as quickly as possible. The most efficient way for them to do this is to demand early stage pre-return meetings.

Having a conscientious accountant and thorough bookkeeping won't stop you being chosen for an investigation

We can work to get the best outcome for you or your business and you won't need to worry about keeping an eye on the costs
